ages, and revised
from time to time by
great teachers--is a
secret traditional
science that studies
the causes that lie
behind observable
phenomena. Dion

training they offer to
initiates.

This handbook helps the living assist the dying at the time of death. It teaches that the living must, first and foremost, understand the process that the soul goes through before they can help the spirit in its transition. Dion Fortune's Book of the Dead is a clear, concise, illuminating

guide that explains the stages in the natural process of dying that each and every soul passes through from this world to the next. Fortune shows how traditional customs connected with the passing of a soul have their roots in psychic fact. For example, we place candles and

fresh flowers in the death chamber as soon as the soul has departed because they provide sufficient etheric emanations to meet the needs of the "etheric double," assisting in the soul's disentanglement from the physical. Without the flowers and candles, the

Loved ones in particular are susceptible to depletion and can be drained dry in their ignorance. The living, Fortune writes, have two tasks to perform: "We must see to it that dust returns as
