Accounting and financial reporting for government and Not-for-Profit Entities.

Covering the essentials of fund accounting, this flexible book introduces the reader to the basic accounting principles at work in both governmental and not-for-profit organizations. This brief book divides most of the chapters into independent sections, which may be covered as separate units. The information on state and local government financial reporting has been updated for coverage of the new financial reporting model, the reporting entity, and financial condition analysis. New examples have been added to more clearly describe the nature of lease accounting. The module on pension trust funds has been rewritten to reflect new GASB pronouncements in a simpler format. New material was added on the measurement of pension costs and other post-employment benefits. For accountants wishing to increase or refresh their knowledge of government and not-for-profit accounting or public budgeting.

I started writing my book the first day that I started taking classes at College of the Canyons. I didn't write the book in printing, I wrote in my heart. The title of my book is My Graduation, because I finished the day I graduated. I took my first class in the spring semester of 1989, my final class in the spring semester of 2005. My book talks about my struggles to get an education while raising a family, as well as the nostalgia for my old country and my love for my new country. In my book, I invite people to read and write. I also want to send a message of love and hope for a better life. How I wish that every immigrant learns English as soon as they come to this country. How I wish that every woman would achieve a college education. Yes, it is hard, but not impossible. The young woman that came to this country, with a big desire of an education, finally did it.
